## **Call for Papers**

This Call for Papers invites submissions for The Seventh International Conference on Transportation and Logistics (hereafter, T-LOG) on the “Regional Coordination & Cooperation in Transportation Logistics, and Belt & Road Initiative.”

Due to world trade liberalization and global logistics operation, world cargo volume has been increasing in an unprecedented fashion for the past several decades, especially in the Asia-Pacific region. This exceptional growth path has raised a necessity of regional cooperation and coordination. Additionally, with the increasing prevalence of “Belt & Road Initiative,” the issue of how to establish and improve transportation/logistics networks in Asia-Pacific regions has also become important. As an excellent platform to facilitate interactions among transportation and logistics professionals, T-LOG 2018 will be hosted by Dalian Maritime University in Dalian, a city known as the Northern pearl in China. The conference will serve as a great opportunity for both academics and practitioners to exchange their information and knowledge as well as to work on the issues and problems associated with transportation and logistics.

This conference welcomes submissions on the following topics:

- Aviation Logistics
- City Logistics
- Green Logistics
- Impact of Belt & Road Initiative
- Information Technology for Logistics
- Intermodal Transportation
- International and Cross-border Freight Transportation

- Intelligent Transportation Systems and Urban Mobility
- Logistics System Planning and Design
- Military Logistics
- Rail Transportation
- Regional Coordination & Cooperation in Transportation Logistics
- Reverse Logistics
- Routing and Scheduling for Physical Distribution
- Data Analytics on Logistics
- Shipping Network Analysis
- Supply Chain Integration and Coordination
- Terminal Operations and Port Logistics
- Transportation and Trade Facilitation
- Any other topics related to transportation and logistics

### **Paper Award**
